**\*ARMY Declass/Release Instructions On File\***

23 May 1961

**MEMORANDUM FOR:** Chief, Intelligence Production, Staff, OSI

**SUBJECT :** Release of the SID's to a Member of the Signal Corps, Electronic Laboratories

**REFERENCE :** Your memo to Chief, Document Division, 16 May 1961; same subject.

1. As requested, we have tried to have Mr. Garoff placed on standard distribution for one copy of the **SECRET/NOFORN** version of all SID's. The Army will not authorize this distribution because the Electronic Laboratories at Camp Evans are not permitted to hold any classified intelligence publications and should be serviced only through the Signal R&D Labs at Fort Monmouth, N.J.

25X1A9a

2. [REDACTED] of the OCR Liaison and Collection Division told me that the Signal Corps Intelligence Agency will advise the R&D Labs by telephone today of OSI interest in having Mr. Garoff at Camp Evans see the feature article in OSI SD/61-9; and that in the future the R&D Labs will make available on loan to the Electronic Labs at Camp Evans selected OSI publications on a need-to-know basis.

3. This is another example of the difficulties encountered when direct distribution to contacts in field installations is promised by CIA analysts. It would be much more efficient and secure if our analysts would suggest to their contacts that the publications be requested through their regular distribution channels.

4. Copy number 295 of OSI SD/61-9 is returned herewith.
